Upgrade Your My HealthVet Advanced Account to Premium at a VA Facility

To upgrade your My HealthVet account in person, you must complete the VA Release of Information Form 10-5345a-MHV and show a valid government issued photo ID.

You can conveniently complete the VA Release of Information Form *before* you visit the VA health care facility:

1. Call a local VA health care facility to have the VA Release of Information Form mailed to you to complete before your visit. If you do not have the telephone number, please use the [VA Facility Locator](#) for the contact information of the nearest facility.
2. Or, open this PDF version of the [VA Release of Information Form \(10-5345a-MHV\)](#) right on your computer and complete the form. You can then print your completed form.

Note: When you open or download a PDF file, a temporary file is created on the computer. Others may then be able to view your personal health information on that computer. There is a risk of exposing your information when you download a PDF file, especially on public or shared computers.

You may choose to complete the form *during* your next visit to the local VA health care facility.
